

## INSTRUCTIONS FOR THE END-OF-LIFE DISPOSAL OF THE PRODUCT

Dear customers,

As a company dedicated to the preservation of the environment and sustainable business operations, we adhere to the ISO 14001 standard. To help you properly dispose of our products at the end of their life span, we have prepared the following instructions:

### Hydraulic Components

- **Sorting:** Hydraulic components, including connections, valves, pumps and cylinders need to be sorted by material (metal, plastic, rubber).
- **Recycling:** Hand over metal parts (steel, aluminum, etc.) to local metal recycling centers. Dispose of plastic and rubber parts in accordance with local plastic and rubber recycling guidelines.
- **Disposal of liquids:** If the hydraulic system contains liquids, such as oils, please hand them over to authorized hazardous waste disposal centers.

### Rubber and Steel Seamless Pipes

- **Sorting:** Sort rubber pipes separately from steel pipes.
- **Recycling of rubber pipes:** Rubber pipes can be recycled in specialized rubber recycling plants. Contact local recycling centers for information.
- **Steel pipe recycling:** Take steel pipes to local metal recycling centers.
- **Maintenance of cleanliness:** Before handing over, please ensure that the pipes are cleaned of liquid residues and other materials.

### General Guidelines

- **Reuse:** Before you decide to dispose of products, consider reusing or donating them.
- **Local regulations:** Always follow local regulations and guidelines for waste disposal.
- **Contact:** If you have any questions or need help regarding the proper disposal of our products, please feel free to contact us at: [quality-dpt@oleumflex.com](mailto:quality-dpt@oleumflex.com)

Thank you for helping to preserve the environment!

With respect,

Oleum Flex d.o.o.
